

Flu shot and other vaccines

Plans must provide coverage without cost sharing for immunizations that are recommended for routine use by the Advisory Committee on Immunization Practices (ACIP), a federal committee comprised of immunization experts that is convened by the Centers for Disease Control and Prevention. Vaccines may be covered by your medical benefit and not your pharmacy benefit.

Many vaccines can be obtained on a walk-in basis by presenting the member ID card at the time of service. Members should review their benefit plan to determine coverage for vaccines.
